CAN NATIONAL COUNCIL.

Here to Inspect Churches of Indianapolis District-His Views on Future of Colored Race.

Bishop Walters, who presides over the Missouri district of the A. M. E. Zion Church, embracing the States of Missouri

As president of the Afro-American National prominence and is generally recognized as one of the leading men of his race. The colored people of Indianapolis are especially proud of Bishop Walters and he seems to have a predilection for Indianapolis. "In no city in the world," said the bishop last night, "is the negro better treated than in Indianapolis. The courtesy shown us by the newspapers and by the citizens during our meeting last summer has endeared the city of Indianapolis to every negro in attendance at the meeting."

As president of the Afro-American Council the bishop is preparing to issue a call for the annual meeting, which is to be held this year in Philadelphia in August. "As great as our meeting was last summer," said the bishop, "we anticipate that it will | told the officers who took them into custody be much larger this year. All of the leading | that they had been gambling, and some of men of our race, including Washington, them that they had gone there for the pur-Green, Mason and others, have promised to attend and we expect to accomplish much for the uplifting of our race. In addition we have invited such men as Grover Cleveland, Vice President Roosevelt, Governor Stone and others of the leading statesmen of the countw, and have received assurances that most of them will address the council some time during the meeting."

BUSINESS QUESTIONS. The bishop said that the coming meeting the business questions which are confronting the colored race. It is the intention, he says, to raise money at the meeting for the purpose of purchasing a large cotton mill with which two negroes are now struggling at Concord, N. C. "We will give these men of our race the financial backing they require," said the bishop, "and show the world that it is possible for colored men to enter the front ranks in the business world." The council will also disof the negroes in the South. "We have already raised more than \$5,000 with which to defeat the 'grandfather' clause in the Louisana election law," he said, "and we intend to carry the matter to the United was removed yesterday to Room 105, on the States Supreme Court at once. I feel quite | same floor. sure that the court will sustain our contention because we are undoubtedly in the right. We are not fighting the property or educational qualifications, because they apply to everybody alike, but we think we ought not to be discriminated against.' When asked what he thought of Booker T. Washington's industrial school the bishop replied that he believed Washington's idea of teaching the negro was the correct one. There is a disposition on the part of many of our people," he said, "to criticise Mr. Washington because he does not give the negro higher ideals than those of manual voked through jealousy, and come from a ments for the annual camp of the juniors, misunderstanding of the negro's present which begins next Monday. "There are too many negroes who want yers, doctors, preachers, etc .- and they forget that they cannot make this gigantic leap in a second. The negroes have made a wonderful advance in the last decade, to have been victimized Wednesday night and would be on still higher ground had they taken advantage of their opportunities. The trouble with them has been that play. It was afterward found that loaded they have not used their rights and privileges in moderation. Time and again have they been compelled to take a backward step because of some outrageous abuse of the law. But I am not discouraged, for I believe the negro is destined to reach the altitude which he has so long coveted. Booker T. Washington is, in my opinion, the greatest man of his race, notwithstanding he has many enemies who refuse to make this acknowledgement. I believe that there are negroes in this country who possess more intellectuality, but Washington has accomplished the greatest work for his people, and is, therefore, the greatest man. You may say for me," said the bishop, in conclusion, "that whatever certain men of Washington's race may say of him, there is no disposition on the part of the Afro-American National Council to deny his

AN APPROPRIATION OF ABOUT \$15,000 FOR EXTRA FIREMEN.

The New Engine Houses Will Be Ready for Use About Aug. 1-City Affairs.

The Board of Safety yesterday filed with the city controller an estimate, coupled money that will be necessary to equip the eight new fire companies which will be ready for service about Aug. 1.

The board has contracted for a new alarm system, two new engines, two service hose wagons, the payment of which has been provided for by a specific oppropriament of the salaries of the additional firemen, for the purchase of additional hose, horses, harness, furniture and other things necessary to equip the new companies. The clerk of the Board of Safety estimates that the city could not get along men, which would require an increased pay roll from August to December of \$9,350. Mr. Davis also figures that \$5,500 will be needed for additional hose and \$150 for the miscellaneous fund, making a total of \$15,000. The Board of Safety also wants \$5,000 transferred to the fund for the purchase and maintenance of horses. City Controller Johnson said yesterday that he had not looked over the estimate submitted by the Board of Safety, but thought it would be necessary to recom-

War Department Thinks All Preliminaries May Be Disposed of by the Christmas Holidays.

WASHINGTON, June 13 .- It is expected at the War Department that Cuban independence will be an accomplished fact by next Christmas. The next step in order, by the constitutional convention, is for that body to take up and pass an electoral bil which will provide for the election of all pendent government in Cuba. It is said is ready for submission to the convention at any moment. There is good reason for the belief that Secretary Root has seen this bill and has approved of its provisions, if, indeed, he has not actually had to do with its construction. It is thought the convention can dispose of this measure in a week or two, and that will complete the labors of the body. A period of ninety days, it is said here, must be allowed for publication of the electoral act before the neces-sary elections can be had. It may be necessary, and probably will be, to maintain some United States troops in Cuba after the new officials are inaugurated and until the Cubans have had time to set up a Cuban military force or gendarmerie, but the length of this stay probably will de-pend upon the wishes of the Cubans them-
